MEMORANDUM FOR : Audit Liaison Officer
SUBJECT : Perkin-Elmer Corporation - ARGON

2. Apparently, the difficulty occurred in transferring the lenses from the [redacted] to the A Program and subsequently, producing additional lenses to replace them. Accordingly, Charlie was concerned that the reasonableness of the allocation of cost to each job might be questioned by the local resident auditor. Charlie proposes to combine all costs for both production runs and establish a unit price per lenses which will be charged to each customer.

3. I advised [redacted] to assure Perkin-Elmer that arrangements could be made to assure that this question would not be raised by the resident auditor. I will be glad to discuss this with you at your convenience.
